All - Assessment Task 1: Project Plan and Group Report (EXCEL model)

GOAL:	You will work together as a team, demonstrate an understanding of teamwork, and reflect on your team's plan in preparing group reports, including Excel Model. You will use management accounting tools and analytic techniques to provide quantitative and qualitative analysis to support your recommendations.
PRODUCT:	Written Piece
FORMAT:	<p>This is a group assessment. In teams of three (3), you will prepare a report. Your individual mark will be determined by the quality of an individual plan, the group report, and your individual contribution (measured by peer evaluation).</p> <p>This task is being used for measuring assurance of learning towards Association to Advance Collegiate Schools of Business (AACSB) accreditation. The following Program Competency will be assessed: PC2.1 - Demonstrate an understanding of effectively managing and working in teams in a business context.</p> <p>This task comprises two parts. The first part is an individual submission, weighing 25%, and the second is a group report submission weighing 25%. The first part is an individual plan and reflection on completing the group report. First, you will plan to manage the teamwork necessary to complete the Group Report and prepare an individual plan. Your individual plan should include an evaluation of team members' strengths and assigned responsibilities, time management (a schedule including milestones), communication management (including how to handle possible disputes), and risk management (constraints and problems that might arise). Although the project plan is assessed on individual performance, your team approach should present a coherent, coordinated, and consistent plan. After completing a project, your individual team plan should also include your reflection on teamwork.</p> <p>The second part is the group report including the Excel Model, which is the outcome of your team plan and actual teamwork.</p>

CRITERIA:	No.	Learning Outcome assessed
	1 Structure of the project plan (Team plan- individual)	2

It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the health and safety risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the [online induction training for students](#), and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements

Your eligibility for supplementary assessment in a course is dependent of the following conditions applying:

The final mark is in the percentage range 47% to 49.4%

The course is graded using the Standard Grading scale

You have not failed an assessment task in the course due to academic misconduct

10.3. Assessment: Submission penalties

Late submission of assessment tasks may be penalised at the following maximum rate:

- 5% (of the assessment task's identified value) per day for the first two days from the date identified as the due date for the assessment task.

- 10% (of the assessment task's identified value) for the third day - 20% (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task.

- A result of zero is awarded for an assessment task submitted after seven days from the date identified as the due date for the assessment task. Weekdays and weekends are included in the calculation of days late. To request an extension you must contact your course coordinator to negotiate an outcome.
