	1	Identification of research issues, development and presentation of a research proposal	① ② ③

All - Assessment Task 3: Final examination

GOAL:	To demonstrate an understanding of business analytics in terms of data interpretation and solving data-driven business problems
PRODUCT:	Examination - Centrally Scheduled
FORMAT:	Short-answer questions covering topics related to the third part of the course. Further details will be provided on Canvas. This assessment task is an online, open-book and invigilated exam. You will need to take the exam on Canvas at a specific time and date scheduled by the University, while also attending a live Zoom session and sharing your screen for invigilation purposes. You will need a working computer device, a stable internet connection and a webcam. In the Zoom session, an invigilator will verify your identity and supervise your computer screen and webcam feed throughout the duration of the exam. In special circumstances (for example if you do not have access to a computer or a reliable internet connection), you will be able to request an exam seat in one of UniSC computer labs to take the exam on Canvas and in the presence of an invigilator in a computer lab. More details about this exam will be provided on Canvas.

9. How are risks managed in this course?

Health and safety risks for this course have been assessed as low. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the health and safety risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the online induction training for students, and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements

Your eligibility for supplementary assessment in a course is dependent of the following conditions applying:

The final mark is in the percentage range 47% to 49.4%
The course is graded using the Standard Grading scale
You have not failed an assessment task in the course due to academic misconduct

10.3. Assessment: Submission penalties

Late submission of assessment tasks may be penalised at the following maximum rate:
- 5% (of the assessment task's identified value) per day for the first two days from the date identified as the due date for the assessment task.
- 10% (of the assessment task's identified value) for the third day - 20% (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task.
- A result of zero is awarded for an assessment task submitted after seven days from the date identified as the due date for the assessment task. Weekdays and weekends are included in the calculation of days late. To request an extension you must contact your course coordinator to negotiate an outcome.
