1. What is this course about?

1.1. Description

The course introduces you to reading and writing models, theories, and approaches in Australian contexts. The teaching of reading and writing is adapted according to developmental needs, giving consideration to phonics, fluency, whole language approaches, neuroscience, and critical literacy. Developmental progressions in oracy, reading and writing are explored, and effective instruction techniques are practiced, including auditory and visual processing strategies. Systems for meaning making are studied alongside strategies for differentiation. Students learn how to assess a Year One student's reading and writing competence, evaluate the recorded evidence and propose ways to improve the student's reading and writing at text, word, and letter level.

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.
