The lesson will use inquiry pedagogy and teaching strategies to engage diverse students with achievable learning goals. The team will role-play a 5-minute segment of the lesson that provides an opportunity to discuss the next pedagogical move the teacher could make. All group members should then facilitate a 10 minutes class discussion to explore the range of possible next moves in the lesson and their justification in the context of decolonising pedagogy. The presentation needs to:</p> <p>a) provide an opportunity for all group members to take the lead during the facilitated discussion, b) demonstrate oral communication skills and respect for Aboriginal and Torres Strait Islander histories and culture.</p> | | | | | | | | | | | | | | | | |

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements
