9. How are risks managed in this course?

Health and safety risks for this course have been assessed as low. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the health and safety risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the [online induction training for students](#), and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements

Supplementary Assessment

5.1 A student's eligibility for supplementary assessment in a course is dependent on the following conditions applying:

(a) the final mark is in the percentage range 47 per cent to 49.4 per cent; and

(b) the course is graded using the Standard Grading scale.

5.2 Supplementary assessment is not a possible outcome of a Review of Final Grade. Where the review process requires the student to complete additional assessment to reach a determination on an appropriate final mark and grade, an interim notation of Alternative Exam (AE) or Alternative Assessment – other (AO) is applied.

5.3 Students whose final mark is less than 47 per cent at the time of the official release of grades will not become eligible for supplementary assessment should an application for a review of final grade result in an adjusted final mark in the range of 47 to 49.4 per cent.

10.3. Assessment: Submission penalties

7.8.2 Late submission of assessment tasks will be penalised at the following maximum rate (the rates are cumulative):

(a) five percent (of the assessment task's identified value) per day for the first two days from the date identified as the due date for the assessment task;

(b) 10 percent (of the assessment task's identified value) for the third day;

(c) 20 percent (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task; and

(d) a result of zero is awarded for an assessment task submitted seven days from the date identified as the due date for the assessment task.
