

ELC303 Electronic Measurement and Instrumentation

School: School of Science, Technology and Engineering

2024 Semester 2

UniSC Moreton Bay

**BLENDED
LEARNING**

Most of your course is on campus but you may be able to do some components of this course online.

Please go to usc.edu.au for up to date information on the teaching sessions and campuses where this course is usually offered.

1. What is this course about?

1.1. Description

In this course you will learn and apply the theoretical principles and practical application of electronic measurements and the most appropriate instrumentation for a particular electronic characteristic. You will learn to analyse and interpret electronic test data and to determine the effectiveness of the operation of an electronic circuit by critically evaluating its response to time delays, sensor resolution and signal processing.

1.2. How will this course be delivered?

ACTIVITY	HOURS	BEGINNING WEEK	FREQUENCY
BLENDED LEARNING			
Seminar – On campus	1hr	Week 1	Once Only
Tutorial/Workshop 1 – On campus	2hrs	Week 2	10 times
Laboratory 1 – On campus	2hrs	Week 1	5 times
Learning materials – Asynchronous learning materials	1hr	Week 1	13 times

1.3. Course Topics

- Sensors and instrumentation
- Testing theory, equipment and procedures
- parametric/structural/functional testing
- memory testing
- data collection and analysis
- signal and parameter measurements
- virtual instruments

2. What level is this course?

300 Level (Graduate)

Demonstrating coherence and breadth or depth of knowledge and skills. Independent application of knowledge and skills in unfamiliar contexts. Meeting professional requirements and AQF descriptors for the degree. May require pre-requisites where discipline specific introductory or developing knowledge or skills is necessary. Normally undertaken in the third or fourth full-time study year of an undergraduate program.

3. What is the unit value of this course?

12 units

4. How does this course contribute to my learning?

COURSE LEARNING OUTCOMES	GRADUATE QUALITIES MAPPING	PROFESSIONAL STANDARD MAPPING *
On successful completion of this course, you should be able to...	Completing these tasks successfully will contribute to you becoming...	Engineers Australia Stage 1 Professional Engineer Competency Standards
1 Explain the operating principles of electronic laboratory test equipment;	Knowledgeable	1.1
2 Evaluate the performance of electronic test system, circuit and instruments;	Empowered	1.3, 2.3
3 Outline the principles of reliability to electronic systems, and calculate complex reliability and redundancy;	Creative and critical thinker	2.2
4 Identify the standard of measurement with the codes of practice	Ethical	3.1
5 Work collaboratively in teams utilize and design measurement circuit and system	Engaged	3.6

* Competencies by Professional Body

CODE	COMPETENCY
ENGINEERS AUSTRALIA STAGE 1 PROFESSIONAL ENGINEER COMPETENCY STANDARDS	
1.1	Knowledge and Skill Base: Comprehensive, theory based understanding of the underpinning natural and physical sciences and the engineering fundamentals applicable to the engineering discipline.
1.3	Knowledge and Skill Base: In-depth understanding of specialist bodies of knowledge within the engineering discipline.
2.2	Engineering Application Ability: Fluent application of engineering techniques, tools and resources.
2.3	Engineering Application Ability: Application of systematic engineering synthesis and design processes.
3.1	Professional and Personal Attributes: Ethical conduct and professional accountability.
3.6	Professional and Personal Attributes: Effective team membership and team leadership.

5. Am I eligible to enrol in this course?

Refer to the [UniSC Glossary of terms](#) for definitions of “pre-requisites, co-requisites and anti-requisites”.

5.1. Pre-requisites

ELC300

5.2. Co-requisites

Not applicable

5.3. Anti-requisites

Not applicable

5.4. Specific assumed prior knowledge and skills (where applicable)

Not applicable

6. How am I going to be assessed?

6.1. Grading Scale

Standard Grading (GRD)

High Distinction (HD), Distinction (DN), Credit (CR), Pass (PS), Fail (FL).

6.2. Details of early feedback on progress

Early feedback will be provided through completion of weekly activities in workshops. Furthermore, feedback on each assessment will be provided which will be used to help with the following assessment.

6.3. Assessment tasks

DELIVERY MODE	TASK NO.	ASSESSMENT PRODUCT	INDIVIDUAL OR GROUP	WEIGHTING %	WHAT IS THE DURATION / LENGTH?	WHEN SHOULD I SUBMIT?	WHERE SHOULD I SUBMIT IT?
All	1	Portfolio	Group	20%	1500 words equivalent	Week 5	Online Assignment Submission with plagiarism check
All	2	Artefact - Technical and Scientific, and Written Piece	Individual	30%	2000 words equivalent	Week 11	Online Assignment Submission with plagiarism check
All	3	Examination - Centrally Scheduled	Individual	50%	2 hours	Exam Period	Online Assignment Submission with plagiarism check

All - Assessment Task 1: Report-based Workshop Portfolio

GOAL:	To develop your ability to apply instrumentation and measurement theory and tools for problem solving and document your conclusions in a portfolio of engineering reports.																
PRODUCT:	Portfolio																
FORMAT:	You'll work as a group to produce a portfolio of Electronic Measurement and Instrumentation and related information in the form of a document of 1500 words equivalent including figures, text, and diagrams																
CRITERIA:	<table border="1"> <thead> <tr> <th>No.</th> <th></th> <th>Learning Outcome assessed</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Selection of appropriate instrumentation and measurement tools for various scenarios</td> <td>1 5</td> </tr> <tr> <td>2</td> <td>Application of fundamental measurement theory and instrumentation tools</td> <td>2</td> </tr> <tr> <td>3</td> <td>Communication of design specifications using appropriate engineering terminology, symbols and diagrams in appropriate report format</td> <td>2 4</td> </tr> <tr> <td>4</td> <td>Demonstration of ability to work collaboratively in teams to design computer programs and simple digital circuits to meet specified requirements</td> <td>5</td> </tr> </tbody> </table>	No.		Learning Outcome assessed	1	Selection of appropriate instrumentation and measurement tools for various scenarios	1 5	2	Application of fundamental measurement theory and instrumentation tools	2	3	Communication of design specifications using appropriate engineering terminology, symbols and diagrams in appropriate report format	2 4	4	Demonstration of ability to work collaboratively in teams to design computer programs and simple digital circuits to meet specified requirements	5	
No.		Learning Outcome assessed															
1	Selection of appropriate instrumentation and measurement tools for various scenarios	1 5															
2	Application of fundamental measurement theory and instrumentation tools	2															
3	Communication of design specifications using appropriate engineering terminology, symbols and diagrams in appropriate report format	2 4															
4	Demonstration of ability to work collaboratively in teams to design computer programs and simple digital circuits to meet specified requirements	5															
GENERIC SKILLS:	Communication, Collaboration, Problem solving																

All - Assessment Task 2: Technical engineering artefact

GOAL:	To develop your understanding of core theory and enable you to demonstrate your knowledge and skills in applying instrumentation and measurement tools	
PRODUCT:	Artefact - Technical and Scientific, and Written Piece	
FORMAT:	For this task you will produce a consolidated written artefact adhering to a specified structure that is approximately 2000 words equivalent in length including figures, text, and diagrams	
CRITERIA:	No.	Learning Outcome assessed
	1	Demonstration of efficient and effective techniques and skills to apply instrumentation and measurement theory and tools programs or logic circuits 3
	2	Presentation of computer code and engineering drawings using the appropriate format, symbols and projection standards 2
	3	Communication of design specifications using appropriate engineering terminology and symbols 4
GENERIC SKILLS:	Problem solving, Applying technologies	

All - Assessment Task 3: Final Examination

GOAL:	The final exam will develop your ability to independently apply your skills and knowledge to solve familiar problem based questions with confidence within a set time limit and without access to additional resources.	
PRODUCT:	Examination - Centrally Scheduled	
FORMAT:	Centrally scheduled 2-hour closed book examination	
CRITERIA:	No.	Learning Outcome assessed
	1	Selection of appropriate mathematical theory and programming constructs 1 2
	2	Correct application of theory and knowledge to solve engineering problems 3
	3	Communication of solutions using appropriate engineering terminology, symbols and diagrams 1
GENERIC SKILLS:	Problem solving, Applying technologies	

7. Directed study hours

A 12-unit course will have total of 150 learning hours which will include directed study hours (including online if required), self-directed learning and completion of assessable tasks. Student workload is calculated at 12.5 learning hours per one unit.

8. What resources do I need to undertake this course?

Please note: Course information, including specific information of recommended readings, learning activities, resources, weekly readings, etc. are available on the course Canvas site– Please log in as soon as possible.

8.1. Prescribed text(s) or course reader

There are no required/recommended resources for this course.

8.2. Specific requirements

Not applicable

9. How are risks managed in this course?

Risk assessments have been performed for all studio and laboratory classes and a low level of health and safety risk exists. Some risk concerns may include equipment, instruments, and tools; as well as manual handling items within the laboratory. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the [online induction training for students](#), and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements

Eligibility for Supplementary Assessment

Your eligibility for supplementary assessment in a course is dependent of the following conditions applying:

The final mark is in the percentage range 47% to 49.4%

The course is graded using the Standard Grading scale

You have not failed an assessment task in the course due to academic misconduct

10.3. Assessment: Submission penalties

Late submission of assessment tasks may be penalised at the following maximum rate:

- 5% (of the assessment task's identified value) per day for the first two days from the date identified as the due date for the assessment task.

- 10% (of the assessment task's identified value) for the third day - 20% (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task.

- A result of zero is awarded for an assessment task submitted after seven days from the date identified as the due date for the assessment task.

Weekdays and weekends are included in the calculation of days late.

To request an extension you must contact your course coordinator to negotiate an outcome.

10.4. SafeUniSC

UniSC is committed to a culture of respect and providing a safe and supportive environment for all members of our community. For immediate assistance on campus contact SafeUniSC by phone: [07 5430 1168](tel:0754301168) or using the [SafeZone](#) app. For general enquires contact the SafeUniSC team by phone [07 5456 3864](tel:0754563864) or email safe@usc.edu.au.

The SafeUniSC Specialist Service is a Student Wellbeing service that provides free and confidential support to students who may have experienced or observed behaviour that could cause fear, offence or trauma. To contact the service call [07 5430 1226](tel:0754301226) or email studentwellbeing@usc.edu.au.

10.5. Study help

For help with course-specific advice, for example what information to include in your assessment, you should first contact your tutor, then your course coordinator, if needed.

If you require additional assistance, the Learning Advisers are trained professionals who are ready to help you develop a wide range of academic skills. Visit the [Learning Advisers](#) web page for more information, or contact Student Central for further assistance: +61 7 5430 2890 or studentcentral@usc.edu.au.

10.6. Wellbeing Services

Student Wellbeing provide free and confidential counselling on a wide range of personal, academic, social and psychological matters, to foster positive mental health and wellbeing for your academic success.

To book a confidential appointment go to [Student Hub](#), email studentwellbeing@usc.edu.au or call 07 5430 1226.

10.7. AccessAbility Services

Ability Advisers ensure equal access to all aspects of university life. If your studies are affected by a disability, learning disorder mental health issue, injury or illness, or you are a primary carer for someone with a disability or who is considered frail and aged, [AccessAbility Services](#) can provide access to appropriate reasonable adjustments and practical advice about the support and facilities available to you throughout the University.

To book a confidential appointment go to [Student Hub](#), email AccessAbility@usc.edu.au or call 07 5430 2890.

10.8. Links to relevant University policy and procedures

For more information on Academic Learning & Teaching categories including:

- Assessment: Courses and Coursework Programs
- Review of Assessment and Final Grades
- Supplementary Assessment
- Central Examinations
- Deferred Examinations
- Student Conduct
- Students with a Disability

For more information, visit <https://www.usc.edu.au/explore/policies-and-procedures#academic-learning-and-teaching>

10.9. Student Charter

UniSC is committed to excellence in teaching, research and engagement in an environment that is inclusive, inspiring, safe and respectful. The [Student Charter](#) sets out what students can expect from the University, and what in turn is expected of students, to achieve these outcomes.

10.10. General Enquiries

In person:

- **UniSC Sunshine Coast** - Student Central, Ground Floor, Building C, 90 Sippy Downs Drive, Sippy Downs
- **UniSC Moreton Bay** - Service Centre, Ground Floor, Foundation Building, Gympie Road, Petrie
- **UniSC SouthBank** - Student Central, Building A4 (SW1), 52 Merivale Street, South Brisbane
- **UniSC Gympie** - Student Central, 71 Cartwright Road, Gympie
- **UniSC Fraser Coast** - Student Central, Student Central, Building A, 161 Old Maryborough Rd, Hervey Bay
- **UniSC Caboolture** - Student Central, Level 1 Building J, Cnr Manley and Tallon Street, Caboolture

Tel: +61 7 5430 2890

Email: studentcentral@usc.edu.au
