

COURSE OUTLINE

ENS324 Advanced Genetics

School: School of Science, Technology and Engineering

2025 Semester 2

UniSC Sunshine Coast UniSC Moreton Bay

BLENDED LEARNING You can do this course without coming onto campus, unless your program has specified a mandatory onsite requirement.

Please go to usc.edu.au for up to date information on the teaching sessions and campuses where this course is usually offered.

1. What is this course about?

1.1. Description

Genetics play a crucial role in addressing societal challenges - solving medical mysteries & feeding the world's population. This course focusses on 5 main areas: medical genetics to improve health, population genetics to understand evolutionary forces & changing environments, agriculture to produce quality food, bacterial/viral genetics & bioinformatics to overcome disease challenges, & genetics & applications in society. You will learn modern concepts & apply acquired knowledge to undertake your own inquiry into the nature of future research & development in this area of science.

1.2. How will this course be delivered?

ACTIVITY	HOURS	BEGINNING WEEK	FREQUENCY
BLENDED LEARNING			
Learning materials – Learning materials (online) will introduce the advanced methods and techniques in genetics and genomics	2hrs	Week 1	13 times
Laboratory 1 – On campus computer-based practicals	2hrs	Week 1	13 times
Seminar – On campus seminar	1hr	Week 8	Once Only

1.3. Course Topics

- 1. Introduction to advanced genetics
- 2. Overview of ecological genetics in natural populations
- 3. Bacterial genetics and bioinformatics
- 4. Overview of viral genetics and bioinformatics
- 5. Human genome, cancer genetics and personalised medicine
- 6. Quanttiative genetics
- 7. Genetic and Genomic analysis
- 8. Guest lecture seminar
- 9. Population genomics and human evolution
- 10. Phylogenetics
- 11. Epigenetics class discussion
- 12. Applications of genetics in society
- 13. Students' seminars: Emerging techologies and advanced topics in genetics and genomics

2. What level is this course?

300 Level (Graduate)

Demonstrating coherence and breadth or depth of knowledge and skills. Independent application of knowledge and skills in unfamiliar contexts. Meeting professional requirements and AQF descriptors for the degree. May require pre-requisites where discipline specific introductory or developing knowledge or skills is necessary. Normally undertaken in the third or fourth full-time study year of an undergraduate program.

3. What is the unit value of this course?

12 units

4. How does this course contribute to my learning?

COU	RSE LEARNING OUTCOMES	GRADUATE QUALITIES
On s	successful completion of this course, you should be able to	Completing these tasks successfully will contribute to you becoming
1	Evaluate the sustainability implications of applied genetics in agriculture and medicine, breeding and selection strategies	Ethical Sustainability-focussed
2	Describe and evaluate genetic and reproductive processes in animals and plants, recognize applications of genetics, genomics and genome sequencing to medical research, relate genetic information such as breeding vales and selection indices to new situations.	Knowledgeable Empowered
3	Search the scientific literature for information, critically evaluate the literature, and present this information in an appropriate written and oral format.	Creative and critical thinker Empowered
4	Use data sets and software to examine and interpret genetic information, and use scientific analysis skills to interpret scientific results.	Creative and critical thinker Empowered

5. Am I eligible to enrol in this course?

Refer to the <u>UniSC Glossary of terms</u> for definitions of "pre-requisites, co-requisites and anti-requisites".

5.1. Pre-requisites

(LFS100 or SCI100) or SCI102 or (LFS103 and enrolled in program SC355, SC357 or SC354)

5.2. Co-requisites

Not applicable

5.3. Anti-requisites

Not applicable

5.4. Specific assumed prior knowledge and skills (where applicable)

You will have prior knowledge and skills in cell biology or biodiversity that can be used to interpret the results of genetic studies with human, animals and plants.

6. How am I going to be assessed?

6.1. Grading Scale

Standard Grading (GRD)

High Distinction (HD), Distinction (DN), Credit (CR), Pass (PS), Fail (FL).

6.2. Details of early feedback on progress

Students will receive early and ongoing feedback via Practical Reports.

6.3. Assessment tasks

DELIVERY MODE	TASK NO.	ASSESSMENT PRODUCT	INDIVIDUAL OR GROUP	WEIGHTING %	WHAT IS THE DURATION / LENGTH?	WHEN SHOULD I SUBMIT?	WHERE SHOULD I SUBMIT IT?
All	1	Report	Individual	40%	Max 500 words per lab report X 8 reports	Refer to Format	In Class
All	2	Oral and Written Piece	Individual	40%	2,000 words for the research plan and 7-10 minutes oral presentation	Refer to Format	In Class
All	3	Examination - Centrally Scheduled	Individual	20%	2 hours	Exam Period	Exam Venue

All - Assessment Task 1: Practical reports

GOAL:	To complete practical reports to demonstrate the essential learning of concepts and methods in a bioinformatics	genetics, genomics and
PRODUCT:	Report	
FORMAT:	8 reports (max 350-400 words per report or following the tutorial materials) from practicals in 8 di practicals will be held in science lab during the tutorial time slot and will be comprised of both lab based questions. Topics of the report include ecological genetics in natural populations, evolution genetics/or pharmacogenetics, quantitative genetics, genetic and genomic analyses, viral genetic well as genomic, statistic and bioinformatics skills applied to medical and agricultural genetics. Treport will be detailed in Canvas.	oratory and computer- n, human genome/cancer cs and phylogenetics, as
CRITERIA:	No.	Learning Outcome assessed
	1 Reports will require the ability to demonstrate practical and theoretical knowledge of genetics in selection and breeding programs, genomics and bioinformatics	1234
GENERIC SKILLS:		

All - Assessment Task 2: Research plan and oral presentation

	To develop scientific research, writing and presentation skills and gain an in-depth understanding scientific literature on a given topic in genetics/genomics/or bioinformatics	of the state of the
PRODUCT:	Oral and Written Piece	
FORMAT:	Submit: Weeks 9-13. You will submit a half-page draft research proposal in week 3 and then an in research plan (excluding figures, tables and references) in weeks 9-10 and give an oral presentat minutes) based on the scientific literature covering aspects of genetics. A list of topics will be made first tutorial class. Example of the research plan will be given in Canvas. Assessments will include week 3 (5%), a full report in weeks 9-10 (25%) and oral presentation in week 13 (10%).	ion in week 13 (10 de available during the
CRITERIA:	No.	Learning Outcome assessed
	1 Review and synthesis of relevant literature; writing in a scientific format	3 4
	2 presenting scientific information in an oral and visual format as required for a university lecture	1234
	3 evaluating the sustainability and ethical implications of genetics or breeding strategies	123
GENERIC SKILLS:		
II Assess		
ui - Assessi	ment Task 3: Written exam - End of Semester	
	To demonstrate your cumulative learning of the concepts in this course including genetics in socie breeding values, selection index and genomic selection, genetic improvement programs, reprodu functional genomics, bioinformatics, animal/crop/plant/forestry improvement, medical genetics, ge sex manipulation.	ctive strategies,
GOAL: PRODUCT:	To demonstrate your cumulative learning of the concepts in this course including genetics in socie breeding values, selection index and genomic selection, genetic improvement programs, reproductional genomics, bioinformatics, animal/crop/plant/forestry improvement, medical genetics, ge	ctive strategies,
GOAL:	To demonstrate your cumulative learning of the concepts in this course including genetics in socie breeding values, selection index and genomic selection, genetic improvement programs, reproductional genomics, bioinformatics, animal/crop/plant/forestry improvement, medical genetics, general sex manipulation.	ctive strategies, enetic engineering and tutorials. This
GOAL: PRODUCT:	To demonstrate your cumulative learning of the concepts in this course including genetics in socie breeding values, selection index and genomic selection, genetic improvement programs, reproduct functional genomics, bioinformatics, animal/crop/plant/forestry improvement, medical genetics, general sex manipulation. Examination - Centrally Scheduled You will undertake a 2-hour examination based on material covered in the lectures, practicals and examination will be held under official exam conditions in a centralised exam venue. The exam will	ctive strategies, enetic engineering and tutorials. This
GOAL: PRODUCT: FORMAT:	To demonstrate your cumulative learning of the concepts in this course including genetics in socie breeding values, selection index and genomic selection, genetic improvement programs, reproductional genomics, bioinformatics, animal/crop/plant/forestry improvement, medical genetics, ge	ctive strategies, enetic engineering and tutorials. This I be comprised of short

7. Directed study hours

GENERIC SKILLS:

A 12-unit course will have total of 150 learning hours which will include directed study hours (including online if required), self-directed learning and completion of assessable tasks. Student workload is calculated at 12.5 learning hours per one unit.

8. What resources do I need to undertake this course?

Please note: Course information, including specific information of recommended readings, learning activities, resources, weekly readings, etc. are available on the course Canvas site—Please log in as soon as possible.

8.1. Prescribed text(s) or course reader

There are no required/recommended resources for this course.

8.2. Specific requirements

Nil

9. How are risks managed in this course?

Health and safety risks for this course have been assessed as low. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the health and safety risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the online induction training for students, and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements

Eligibility for Supplementary Assessment

Your eligibility for supplementary assessment in a course is dependent of the following conditions applying:

- (a) The final mark is in the percentage range 47% to 49.4%; and
- (b) The course is graded using the Standard Grading scale

10.3. Assessment: Submission penalties

Late submissions may be penalised up to and including the following maximum percentage of the assessment task's identified value, with weekdays and weekends included in the calculation of days late:

- (a) One day: deduct 5%;
- (b) Two days: deduct 10%;
- (c) Three days: deduct 20%;
- (d) Four days: deduct 40%;
- (e) Five days: deduct 60%;
- (f) Six days: deduct 80%;
- (g) Seven days: A result of zero is awarded for the assessment task.

The following penalties will apply for a late submission for an online examination:

Less than 15 minutes: No penalty

From 15 minutes to 30 minutes: 20% penalty More than 30 minutes: 100% penalty

10.4. SafeUniSC

UniSC is committed to a culture of respect and providing a safe and supportive environment for all members of our community. For immediate assistance on campus contact SafeUniSC by phone: 0754301168 or using the SafeZone app. For general enquires contact the SafeUniSC team by phone 0754563864 or email safe@usc.edu.au.

The SafeUniSC Specialist Service is a Student Wellbeing service that provides free and confidential support to students who may have experienced or observed behaviour that could cause fear, offence or trauma. To contact the service call <u>07 5430 1226</u> or email <u>studentwellbeing@usc.edu.au</u>.

10.5. Study help

For help with course-specific advice, for example what information to include in your assessment, you should first contact your tutor, then your course coordinator, if needed.

If you require additional assistance, the Learning Advisers are trained professionals who are ready to help you develop a wide range of academic skills. Visit the <u>Learning Advisers</u> web page for more information, or contact Student Central for further assistance: +61 7 5430 2890 or <u>studentcentral@usc.edu.au</u>.

10.6. Wellbeing Services

Student Wellbeing provide free and confidential counselling on a wide range of personal, academic, social and psychological matters, to foster positive mental health and wellbeing for your academic success.

To book a confidential appointment go to Student Hub, email studentwellbeing@usc.edu.au or call 07 5430 1226.

10.7. AccessAbility Services

Ability Advisers ensure equal access to all aspects of university life. If your studies are affected by a disability, learning disorder mental health issue, injury or illness, or you are a primary carer for someone with a disability or who is considered frail and aged, AccessAbility Services can provide access to appropriate reasonable adjustments and practical advice about the support and facilities available to you throughout the University.

To book a confidential appointment go to Student Hub, email AccessAbility@usc.edu.au or call 07 5430 2890.

10.8. Links to relevant University policy and procedures

For more information on Academic Learning & Teaching categories including:

- Assessment: Courses and Coursework Programs
- · Review of Assessment and Final Grades
- Supplementary Assessment
- Central Examinations
- Deferred Examinations
- Student Conduct
- Students with a Disability

For more information, visit https://www.usc.edu.au/explore/policies-and-procedures#academic-learning-and-teaching

10.9. Student Charter

UniSC is committed to excellence in teaching, research and engagement in an environment that is inclusive, inspiring, safe and respectful. The <u>Student Charter</u> sets out what students can expect from the University, and what in turn is expected of students, to achieve these outcomes.

10.10.General Enquiries

In person:

- UniSC Sunshine Coast Student Central, Ground Floor, Building C, 90 Sippy Downs Drive, Sippy Downs
- o UniSC Moreton Bay Service Centre, Ground Floor, Foundation Building, Gympie Road, Petrie
- UniSC SouthBank Student Central, Building A4 (SW1), 52 Merivale Street, South Brisbane
- o UniSC Gympie Student Central, 71 Cartwright Road, Gympie
- o UniSC Fraser Coast Student Central, Student Central, Building A, 161 Old Maryborough Rd, Hervey Bay
- UniSC Caboolture Student Central, Level 1 Building J, Cnr Manley and Tallon Street, Caboolture
