1. What is this course about?

1.1. Description

This Work Integrated Learning course is essential preparation for professional practice as a dietitian. Under the supervision of an experienced supervisor, you will demonstrate skills and competencies in nutrition and dietetic workplace settings. Settings include medical nutrition therapy, public health nutrition and food service systems. Academic staff allocate placement dates and settings and you must complete a minimum of 45 full-time equivalent days scheduled over one or more placement blocks. This placement contributes towards the total 100 days of placement required for professional accreditation. At the completion of the course, you will demonstrate that you are competent against the Dietitian Australia Competency Standards as a graduate entry-level dietetic practitioner.

All - Assessment Task 1: Placement Professional Competencies

GOAL:	The purpose of this course is for you to develop and demonstrate professional competencies as a dietitian. To do this you will undertake supervised work integrated learning and perform the tasks of a dietitian working in a professional setting. A key element of this assessment is to demonstrate competency in working professionally using nutrition and dietetic theory in a professional practice setting.		
PRODUCT:	Placement performance		
FORMAT:	<p>Over a minimum of a 45-day placement period, you will work either individually or in pairs (depending on the context of the placement) under the supervision of appropriately qualified dietitians to develop skills in dietetic practice. The Placement Academic Supervisors will notify you of the dietetic practice settings in which you will be placed.</p> <p>You will be assessed on your professional competency by the Placement Academic Supervisor in collaboration with the Placement Workplace Supervisor. The specific competencies assessed will relate to the type of professional practice setting. These are based on the Dietitians Australia (DA) National Competency Standards. Demonstration of meeting competency will be assessed by the UniSC Placement Academic Supervisor and the Course Coordinator and will be determined based on feedback from the Placement Workplace Supervisors in addition to a range of evidence as described in tasks 1a and 1b. The strategies used as evidence will be determined by the placement setting and described in the assessment instructions on Canvas.</p>

8.2. Specific requirements

Students are expected to familiarise themselves with the timing and length of placements in the program and plan for these accordingly. Occasionally, placements will require students to work outside normal business hours and it is likely that some placements will occur away from the Sunshine Coast.

Students should prepare to undertake placements outside the local geographical area. This includes planning for times when you may not be able to engage in paid employment and for the cost of travel, living and accommodation expenses.

Students are required to wear a UniSC student dietitian uniform and badge when completing placement.

Costs related to travel, accommodation, uniform and other expenses incurred to attend placement are the student's responsibility. Students are required to comply with all mandatory requirements to be eligible for placement.

9. How are risks managed in this course?

Risk assessments have been performed for all field activities and a low level of health and safety risk exists. Some risks concerns may include working in an unknown environment as well as slip and trip hazards. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the health and safety risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the [online induction training for students](#), and following the instructions of the University staff.

10. What administrative information is relevant to this course?

10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

10.2. Assessment: Additional Requirements

This course will be graded as Pass in a Limited Grade Course (PU) or Fail in a Limited Grade Course (UF) as per clause 5.1.1.3 and 5.1.1.4 of the Grades and Grade Point Average (GPA) - Academic Policy.

In a course eligible to use Limited Grades, all assessment items in that course are marked on a Pass/Fail basis and all assessment tasks are required to be passed for a student to successfully complete the course. Supplementary assessment is not available in courses using Limited Grades.

10.3. Assessment: Submission penalties

You must contact your Course Coordinator and provide the required documentation if you require an extension or alternate assessment.

Refer to the Assessment: Courses and Coursework Programs – Procedures.

10.4. SafeUniSC
