**BLENDED  
LEARNING**

You can do this course without coming onto campus, unless your program has specified a mandatory onsite requirement.

*Please go to [usc.edu.au](http://usc.edu.au) for up to date information on the teaching sessions and campuses where this course is usually offered.*

## 1. What is this course about?

### 1.1. Description

In this course, you will learn how to plan and lead outdoor environmental studies expeditions using non-motorized forms of transport. The expeditions can last up to 6 days, and you will learn to be responsible for others in natural outdoor environments. You will work in small groups to research, plan, and lead the expeditions. Please note that there are physical requirements and location restrictions. If you have any concerns that may affect your participation, please contact the course coordinator or a UniSC Disability Advisor for assistance.

### 1.2. How will this course be delivered?

ACTIVITY	HOURS	BEGINNING WEEK	FREQUENCY
<b>BLENDED LEARNING</b>			
<b>Tutorial/Workshop 1</b> – There will be a series of 2hour workshops throughout the semester. Attendance is a requirement at these workshops as they serve as preparatory work and development of required safety knowledge for the completion of fieldwork	2hrs	Week 1	6 times
<b>Fieldwork</b> – Sea kayak workshop	4hrs	Refer to Format	Once Only
<b>Learning materials</b> – You are required to engage and interact with asynchronous materials and activities accessed through Canvas modules, course readings and required texts.	1hr	Throughout teaching period (refer to Format)	8 times

ACTIVITY	HOURS	BEGINNING WEEK	FREQUENCY
<b>Fieldwork</b> – Fieldwork trips - duration dependent on location. Students are required to complete associated fieldwork aligned to workshops. The fieldwork requires off-campus activities. The total number of days of fieldwork will be identified in Canvas	8hrs	Throughout teaching period (refer to Format)	8 times

### 1.3. Course Topics

- Review of threshold concepts applicable to outdoor education expeditions,
- The conceptualisation of the role of journeys in outdoor education
- Outdoor education expedition planning and preparation
- Expedition logistics and resources
- Safety management for expeditions
- Peer group leadership and working in groups on extended journeys
- Place-based knowledge development for teaching naturalist skills and knowledge in the field
- Development of extension skills in activities linked to the expedition requirements

## 2. What level is this course?

300 Level (Graduate)

Demonstrating coherence and breadth or depth of knowledge and skills. Independent application of knowledge and skills in unfamiliar contexts. Meeting professional requirements and AQF descriptors for the degree. May require pre-requisites where discipline specific introductory or developing knowledge or skills is necessary. Normally undertaken in the third or fourth full-time study year of an undergraduate program.

## 3. What is the unit value of this course?

12 units

### 8.2. Specific requirements

OES300 is structured to provide a sequence of workshops and fieldwork experiences that equip you with the knowledge and practical skills necessary to meet industry-established safety standards. Therefore, both the University and our industry partners expect you to participate in all of the workshops and fieldwork trips and demonstrate satisfactory proficiency in the safety-related activities required for safe participation in the expedition and later OES courses in your program. You must complete and pass the UniSC fieldwork induction quiz before the first practice session and wear appropriate clothing for fieldwork activities. Reasonable alternatives will be provided for students who cannot attend field trips because of circumstances beyond their control. You will need to provide the following items for the practical field trips components of the trip: suitable clothing for all weather contingencies; a sleeping mat; a sleeping bag; an A5 learning journal with an all-weather case; and other personal camping equipment. Tents and stoves will be provided to students.

Please note that course information, including specific information on learning activities, resources, weekly readings, etc., is available on Canvas. Therefore, please log in as soon as possible.

## 9. How are risks managed in this course?

Risk assessments have been performed for all field activities and low to moderate levels of health and safety risk exists. Moderate risks may include working in an Australian bush setting, working with people, working outside normal office hours for example. It is your responsibility to review course material, search online, discuss with lecturers and peers and understand the health and safety risks associated with your specific course of study and to familiarise yourself with the University's general health and safety principles by reviewing the [online induction training for students](#), and following the instructions of the University staff.

## 10. What administrative information is relevant to this course?

### 10.1. Assessment: Academic Integrity

Academic integrity is the ethical standard of university participation. It ensures that students graduate as a result of proving they are competent in their discipline. This is integral in maintaining the value of academic qualifications. Each industry has expectations and standards of the skills and knowledge within that discipline and these are reflected in assessment.

Academic integrity means that you do not engage in any activity that is considered to be academic fraud; including plagiarism, collusion or outsourcing any part of any assessment item to any other person. You are expected to be honest and ethical by completing all work yourself and indicating in your work which ideas and information were developed by you and which were taken from others. You cannot provide your assessment work to others. You are also expected to provide evidence of wide and critical reading, usually by using appropriate academic references.

In order to minimise incidents of academic fraud, this course may require that some of its assessment tasks, when submitted to Canvas, are electronically checked through Turnitin. This software allows for text comparisons to be made between your submitted assessment item and all other work to which Turnitin has access.

### 10.2. Assessment: Additional Requirements

Eligibility for Supplementary Assessment

Your eligibility for supplementary assessment in a course is dependent on the following conditions applying:

The final mark is in the percentage range 47% to 49.4%

The course is graded using the Standard Grading scale.

You have not failed an assessment task in the course due to academic misconduct.

### 10.3. Assessment: Submission penalties

Late submission of assessment tasks may be penalised at the following maximum rate:

- 5% (of the assessment task's identified value) per day for the first two days from the date identified as the due date for the assessment task.

- 10% (of the assessment task's identified value) for the third day - 20% (of the assessment task's identified value) for the fourth day and subsequent days up to and including seven days from the date identified as the due date for the assessment task.

- A result of zero is awarded for an assessment task submitted after seven days from the date identified as the due date for the assessment task. Weekdays and weekends are included in the calculation of days late. To request an extension, you must contact your course coordinator to negotiate an outcome.

### 10.4. SafeUniSC

UniSC is committed to a culture of respect and providing a safe and supportive environment for all members of our community. For immediate assistance on campus contact SafeUniSC by phone: [07 5430 1168](tel:0754301168) or using the [SafeZone](#) app. For general enquires contact the SafeUniSC team by phone [07 5456 3864](tel:0754563864) or email [safe@usc.edu.au](mailto:safe@usc.edu.au).
